## allmedic™ 30 ml – Super Hydrating Fluid

Features	Benefits
Skin Lipid Components (Triglycerides, Sterols, Wax Esters)	Vital natural moisture factors that provide intense hydration. Rapid improvements to skin elasticity & firmness.  Ration of lipid profile is of healthy 22-year-old skin.  Long term correction is induced with ingredients that occur naturally in the skin calibration & optimal function.  The skin learns to rehydrate itself again – promoting less dependence on extra products.
Accelerated Absorption	Improves the moisture balance and rapidly heals impaired skin. Creates a protective, silky barrier to help prevent dehydration and provide long term correction.
Hyaluronic Acid & Hyaluronic Acid Ultra Low Weight	Attracts and binds up to 1000 x its own weight in moisture. Plumps the surface tissue to alleviate, dry skin. Inhibits trans epidermal water loss, repairs the barrier function and assist healing.  Anti-inflammatory & anti-bacterial effective in healing the epithelium.  Penetrates effectively into the deeper layers of the skin.
Pracaxi Oil (Plant based)	Potent anti-inflammatory, anti-septic, anti-fungal, to facilitate cell renewal in all compromised skin barriers including acne, scarring, eczema, psoriasis etc.  Speed up the wound healing process.
Squalene (Lipid Derived from Olives)	Positively diminishes the production of excess oil in over active sebaceous units.  Helps treat allergies, eczema, rosacea, scar tissue.

**Apply as needed to healing/ barrier-impaired skin. Can be added to moisturiser to intensely boost hydration.**
